Monday, December 2, 2024

12:00pm – 1:00pm CST

CTRE Building

Conference Room 431

This discussion seminar is organized to get an update on the pathogenesis of ITP and the recent advances in this field. Dr. Maganathan leads a group of investigators and graduate students and has several collaborators in India and other countries. There will be an opportunity to have an open discussion with him after the seminar. For further information, please contact Ms. Erin Healy-Erickson at 708-216-3262.
